Art Unit: 3611

**Restriction/Election**

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-29, 36-50 and 56-85, drawn to a strap for a binding, classified in class 280, subclass 624.

FBV II. Claims 30-35 and <sup>51</sup>~~52~~-55, drawn to a method for tightening a strap, classified in class 24, subclass 68R.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the process for using may be practiced on a materially different product, such as a closure for a shoe or carrying bag.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any

Art Unit: 3611

amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
